- Antd
- MySQL Database Managment

Experiences

FrontEnd - Web Developer

March 2021 - present
Isfahan, Iran
Full-time

SnappCarFix / CarFillo

React, Wordpress,

SnappCarFix is an online platform for Car parts and services, backed by Snapp (Uber clone). It includes web apps for Stores, ServiceCenters, Agents, and Sellers, to offer products/services like oil, battery, engine parts, car wash, etc, with 7 delivery/service solutions per product. CarFillo sells products to service centers, it's an Online Shop, which service centers gain credits here based on their services on SnappCarFix.

snappcarfix.com   ag.snappcarfix.com   sc.snappcarfix.com   carfillo.com

Responsibilities:
- Develop and deliver platform
- Code cleaning and some times adding some features to the project.

Projects
